GetBuy Terms and Conditions

Last updated 10 November 2026

Please review these terms before using GetBuy.

1. About GetBuy

GetBuy is a local marketplace that helps buyers discover products offered by participating sellers and coordinate orders and delivery. These terms apply when you access or use the GetBuy app and related services.

GetBuy provides the marketplace and order tools. Unless an order page says otherwise, the seller is responsible for the product, its description, quality, availability, and preparation.

2. Accounts and acceptable use

Provide accurate account and contact details, keep your sign-in credentials secure, and tell us promptly if you suspect someone else is using your account.

Use GetBuy lawfully and respectfully. Do not submit false listings or reviews, interfere with another user, misuse payment or refund processes, or attempt to compromise the app or another account.

You are responsible for activity carried out through your account, except where applicable law provides otherwise. We may restrict access when reasonably needed to protect users, investigate suspected misuse, or comply with law.

3. Listings and orders

A product listing is provided by its seller and may change or become unavailable. Placing an order submits a request to buy; the order page shows its status. An order is not ready for the seller or delivery partner to fulfil until the required payment has been confirmed or the applicable cash-on-delivery process permits fulfilment.

Prices, quantities, delivery charges, service charges, discounts, and other applicable amounts are shown during checkout. Review them before placing an order. The current price and stock are checked when you order; a previous order or saved cart does not guarantee either.

Choose a delivery address and delivery window you can receive. Delivery windows are scheduling choices, not guaranteed arrival times. Contact support through the app if an order has a problem.

4. Payments, cancellations, and refunds

Online payments are processed by the payment provider shown at checkout. An order paid online remains pending until GetBuy verifies the payment. Do not pay a second time for an order that is still being checked; review its status or contact support first.

If a payment is confirmed after an order has been cancelled, a refund may be due. Where a refund is approved, it may require manual processing by GetBuy through the payment provider. The order page or support team will provide status updates. This does not

GetBuy Terms and Conditions

Last updated 10 November 2026

limit rights that cannot be excluded under applicable law.

Cancellation availability depends on the order status. You may cancel where the app allows it; later requests may need review. Any refund will be handled in accordance with applicable law and the order circumstances.

Test payment simulations, when available to developers, are not real payments and must not be used as evidence that money has been transferred.

5. Sellers and delivery partners

Sellers must keep their listings, prices, stock, and store details accurate; handle accepted orders responsibly; and follow applicable food-safety, consumer-protection, tax, and other legal requirements.

Delivery partners should follow the assignment and delivery instructions in the app, protect order information, and provide truthful delivery updates and proof when requested.

GetBuy may pause listings, orders, or account features to investigate safety, payment, quality, or policy concerns. This does not remove any rights or obligations imposed by applicable law.

6. Reviews, messages, and promotions

Reviews should reflect genuine order experiences and must not include unlawful, abusive, misleading, or private information. Order chat and support tools are for the related order and should be used respectfully.

Promotions, loyalty points, and other offers are subject to the eligibility, limits, and expiry details displayed in the app. A seller-funded promotion may reduce the seller proceeds for eligible products; delivery and service charges are excluded unless the offer states otherwise.

7. Service availability and responsibility

We work to keep GetBuy available and accurate, but the app may be interrupted, changed, or temporarily unavailable. Product listings are provided by sellers, and delivery timing can be affected by factors outside GetBuy's control.

Nothing in these terms excludes or limits a responsibility or consumer right that cannot lawfully be excluded or limited. To the extent permitted by law, GetBuy is not responsible for losses caused by inaccurate seller information, unavailable products, or delays outside its reasonable control.

8. Privacy and personal information

GetBuy uses account, contact, order, and delivery information to operate the marketplace, provide support, and protect users. Information needed to fulfil an order may be shared with its seller or assigned delivery partner.

GetBuy Terms and Conditions

Last updated 10 November 2026

These terms do not replace the GetBuy Privacy Policy. Before public launch, publish a separate privacy notice explaining the personal information collected, purposes, lawful basis, retention, sharing, and how users can exercise their rights under applicable data-protection law.

9. Changes and contact

We may update these terms as GetBuy or applicable requirements change. We will make the updated version available in the app and revise the date above. Continued use after an update takes effect is subject to applicable law and any notice or consent required by law.

For questions or order support, use Help & Support in the app or contact support@getbuy.com.ng.

Review note

This document is a working draft and should be reviewed by Nigerian legal counsel before public launch. It does not replace a separate Privacy Policy.
